Weather Cold As Some Crops Ruined

A 13-hour freeze and heavy frost dealt a sharp blow Wednesday to spring and winter crops in the rich Glades farming region, but it was too early to assess the damage.

Lowest temperature reported from the Glades came from the South Florida Sugar Co. which took a reading of 25 degrees and said a frost in its field lasted 13 hours.

Smudge Pot Helps Bean Picker Tues. As Cold Wind Blows

Something new in bean picking had its innovation Tuesday during the cold spell when a Negro bean picker devised a method of keeping partly warm while picking beans. Pickers always use a hamper for picking purposes, pushing the hamper along in front.

The cold spell Tuesday saw something original and different. One Picker had a large smudge pot with a hot fire going in it. Everytime he moved his bean hamper a couple of feet in front of him, he would reach back and drag up the smudge pot behind him.

It was really cold that day and what few buyers there are on Lake Okechobee didn't like the weather any better than anybody else. The bean sale at Unity Farms was held in the heated office. Away from the chilly wind that whipped the grading platform where sales are usually held.

Bandlow & Rardin Take Top Spots On P. B. County Board

County Commissioner Edward Bandlow was elected commission chairman Monday by his fellow board-members and became the second Republican to fill the post. Veteran Commissioner Paul Rardin moved up to the vice chairman's seat which Bandlow occupied for the past year. Rardin also called for a resolution of appreciation for outgoing Chairman E. F. Van Kessel.

"I want to congratulate you and wish you luck in 1964," Van Kessel told Bandlow as he handed over the gavel.

Commissioner George Warren also praised Van Kessel's record as chairman and "for holding to the past millage, which was not easy." He pointed to Van Kessel's record of programs on the renovation of Palm Beach International Airport. Longtime Circuit Court Clerk J. Alex Arnette took the occasion to thank the commission for its cooperation in the past year, and said "I measure next year we will continue to have most cordial relations."

Turning immediately to its heavy agenda, the newly organized commission agreed to spend \$1,200 for each of three inserts in full-page advertisements in the New York Times. The ads will boost Florida as a site for space-industrial expansion.

Richard Hill, division manager of Florida Power and Light Co., asked commissioners to join in the promotion program. He said the advertisements would be replaced by a new-formed group called Florida Defense Space Industries Association, headed by Edward Carter, president of Molecular Research, Inc., West Palm Beach.

"There is a great opportunity in the immediate future for Palm Beach County to be called the electronic center of the country," Hill declared. But he said more promotion is needed.

Hubbell Young, southern advertising manager for the New York Times, told commissioners Florida's share of defense contracts slid from 3 per cent to 1.8 per cent last year. He said some contracts were headed for Florida but were derailed by other states.

Hill said Senator George Smathers had been "apprehensive" about the low amount of National Aeronautic and Space Administration contracts coming to Florida. He said that was the reason for the formation of the Defense Space Industries Association.

The meeting was the first for Lytal since his heart attack Nov. 2. He was hospitalized three weeks and has been recuperating at home. Commissioners told him he appeared to be "in good shape."

"I can't say I missed you all," Lytal kidded, "because I thoroughly enjoyed myself." He warned them jokingly "the doctor will ask you not to rile me up."

Eissey Announces For School Supt.

I am announcing my candidacy for the post of Palm Beach County School Superintendent because I feel that the Palm Beach School System needs a leader in the field of education, a superintendent who has organizational ability coupled with the knowledge and desire to bring the Palm Beach County System to the educational level it should attain, a superintendent who has educational administration experience on both the elementary as well as the secondary level, a superintendent who has the vision to plan school programs which will meet the needs of the individual child, a superintendent who will recognize he must select outstanding people to work with him to effectively administer our rapidly growing school system, a superintendent who will support educationally sound policies without fear of recrimination, and has the courage to make changes where changes are necessary with the wisdom to recognize the areas where these changes are needed, a superintendent who will continually keep in contact with and seek the aid of our community laymen, those in industry, and other interested groups in coordinating the school programs with community needs, and finally a superintendent who will give his fellow administrators and teachers the backing they must have to explore and experiment educationally in order to make Palm Beach the best school system possible for our boys and girls.

With the firm belief that our county school system can and will be the outstanding school system in the State of Florida, I therefore announce my candidacy for Palm

Beach County Superintendent of Public Instruction.

Everett B. Nowlen, C. P. A. will serve as my campaign treasurer and the Atlantic National Bank will serve as depositing institution.

Bud Dickinson Is Officially In The Governor's Race

Fred O. "Bud" Dickinson, generally regarded as a leading candidate for Governor, made his formal announcement Thursday in Tallahassee before his county and regional managers.

Dickinson then met with his West Florida Precinct Captains in Pensacola's San Carlos Hotel. Friday he conferred with Precinct Captains in Jacksonville, Orlando, Tampa, Miami and West Palm Beach, winding up the tour Saturday morning with a breakfast meeting in Fort Lauderdale.

At an announcement planning session in his West Palm Beach home last night Dickinson stated, "Florida in 1964 and the years ahead faces a world of severe competition. Our economy and growth depend upon our ability to surpass that competition. Foreign countries are fighting for our tourist dollar—other states are moving at full speed. Our drive to attract new industry is met by determined campaigns of our sister States. Our drive for an education system of highest standards is in its infancy. To be good today, is not enough and will result in mediocrity tomorrow. If we want the kind of Florida I believe can be ours in the future, we must do everything better."

"Excellence must be our goal! We must arouse within our State

the determination to excel in all that we do. We must equal in order to attract the quality investment we desire for our State. We must attract people in the future who will come to Florida, because to reside here will mean living in a state that does not settle for mediocrity, but strives for excellence in government, business, and living standards."

"But excellence can only be achieved by and for a united Florida—one Sunshine State! Not Florida—not West Florida—Central Florida—Lower East and West Coasts, etc., but 'All Florida.'"

"I have adopted a 3-word slogan for my campaign, because it sums up my opinion of the most important ideology we must implant in the minds of our citizens: the length and breadth of Florida."

"The Dickinson campaign slogan is 'One Sunshine State.'"

"No longer can we afford to allow regional jealousies to dominate our political conduct. One area can no longer be incited against another in a callous bid for votes and power."

"Because only a unified Florida can compete in the arena of worldwide competition. Only one united Sunshine State can successfully build on the sound platform of excellence."

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

Coral Gables Man Is Rote Speaker

"No Arab state has any military pact with any Communist state, including Russia. James Batal of Coral Gables, author and former lecturer at the American University in Beirut, Lebanon, told the Pahokee Rotary Club at its luncheon meeting, Thursday, January 9th at the Lions Club Hall.

"Communism is legally barred in all 13 Arab states, and where it does exist, it operates underground," said Mr. Batal, researcher with a background of 20 years concerning current developments in the Arab World.

An American citizen born in Massachusetts in 1901, Mr. Batal cited that "Just as the United States carries on trade and diplomatic relations with the Communist states, so do the Arabs. For example, Washington has just certified the sale of wheat valued at more than \$100,000,000, to Russia.

"Surely if the United States has the right to carry on trade with Russia, which says it is going to help our country, surely then Americans do not have the right to criticize the Arabs for doing what the United States Government has officially sanctioned namely the right to carry on trade."

A graduate of Amherst College in 1925 and a former Nieman Fellow in Journalism at Harvard University in 1945-46, Mr. Batal spoke on "The Strategic Importance of the Arab World to the Security of the United States". As resident-lecturer in Florida for the Arab Information Center, Mr. Batal mentioned as strategic: (1) Muslim religion, (2) trade-travel routes linking three continents and (3) petroleum.

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{2}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $1\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it's to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. (This Plan means you can have any amount you want automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for security. And money saved by individuals helps keep our economy sound.
